Now let these five "full-year-users" tell you what they have discovered about

The Greatest Gasoline Development in 31 Years

Little more than a year ago, we introduced Conoco Super Gasoline with TCP. At that time, we promised owners of new cars and old that TCP would:

- Boost engine power as much as 15%.
- · Give you extra gas mileage.
- · Be just like an engine tune-up.
- Increase spark-plug life up to 150%.

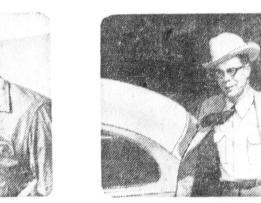

• Let you enjoy all the extra performance of Conoco Super's higher-octane rating.

Now, one year later, here's what TCP customers are telling us about Conoco Super Gasoline with TCP, the greatest gasoline development in 31 years;

"I use this 1951 Plymouth, and my wife, our 1949 DeSoto. Since using Conoco Super with TCP, they run almost like new. The engines sound better. We're cold on Conoco Super with TCP." Mr. Shirl R. Thomas, Grocer

280 South 10th West, Sait Lake City, Utah

"For one year, we've used Conoco Super Gasoline with TCP in 12 trucks and 5 cars, besides this 1953 Oldsmobile. It boosts engine power and gets more miles out of each gallon.

Mr. T. P. McAdams, Jr. Vice-President, McAdams Oil Equipment Enterprises 308 East 6th Street, Bristow, Oklahoma

"Spark plugs used to go at 5,000 miles, but with Conoco Super I haven't changed plugs in 10,000 miles. I'm getting new car power from my 1951 Buick. Conoco Super with TCP is OK!"

Mr. Ulmer J. Newman, Insurance Salesman 2502 West Jefferson Bivd., Dallas. Texas

6 "Driving with my children in the car, it's important to have our 1953 Packard run smoothly. Since using Conoco Super with TCP, there's no engine chatter at all. We're most impressed!" Mrs. James T. Cox, Housewife 4808 Holly Street, Bellaire, Texas

YOUR GUARANTEE

The trademark, TCP, is your guarantee that you are getting the full benefits of "the greatest gasoline development in 31 years." Only Shell Oil Company and its licensee, Continental Oil Company, have TCP.

"What I like about Conoco Super

with TCP has been the ease of start-

Mr. Robert M. Rowland, Builder

1165 Emporia Street, Aurora, Colorado

ing. I use it in my trucks because it's

important to be on time. In my '52

Cadillac, I get better mileage.'

News of the World in Pictures

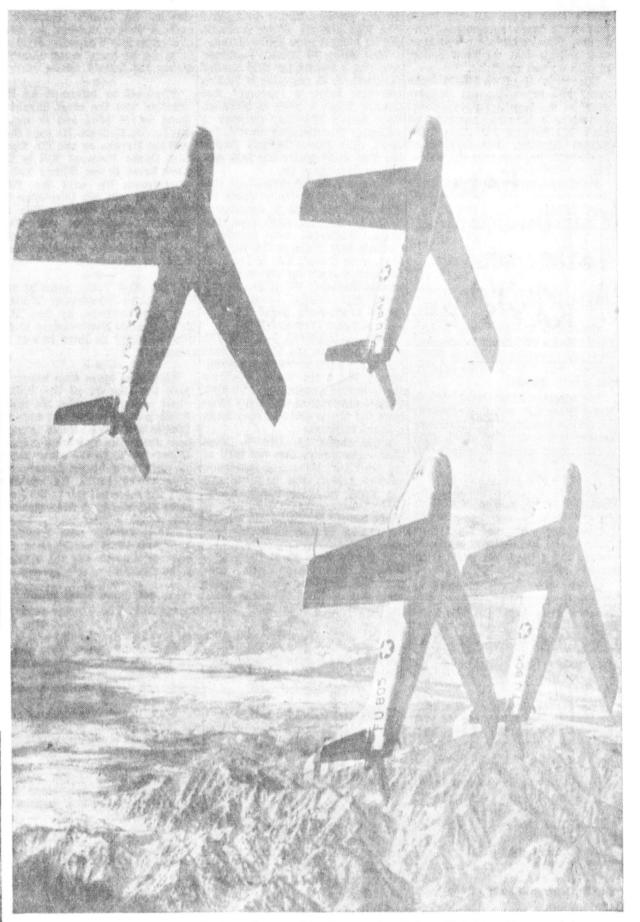

GIANT IN THE SKY is one of the massive figures of the Marine Corps War Memorial being hoisted into position as workmen begin assembling the statue at the north end of Arlington National cemetery. The \$850,000 statue of the historic flag raising at Iwo Jima was created by Felix de Weldon. Washington Monument and Lincoln Memorial are in background.

LOVELY Ann Bleuzen shows just how tall the corn will be at the New Jersey State Fair when it opens in Trenton on September 26. Fair is said to be the country's oldest.

ACROBATIC TEAM of the United States Air Force, the Sabre Knights, flies straight up in close formation during a jet demonstration at an air show held near Los Angeles.

DEDICATED BY President Eisenhower, the National Bureau of Standards research center at Boulder, Colo., houses a radio propagation laboratory which is the largest and most modern lab of its kind in the country. Design of the building features a central spine with one-story wings extending at either side. Three giant radio telescopes at the station are arranged to receive radio waves from the sun and to track the sun automatically as it moves across the sky. Radio astronomy aids in the study of mysterious

THIS DUTCH FATHER knows how to keep his kids out of his wife's hair while she's doing the housework. He modified his own bike to hold the youngsters. Seats in front and back, into which the children are strapped, permit him to drive the bike without holding them.

LATEST FAD from Paris is earring "eyes" to match the eyes of the wearer. Here Gisele Tanalias, a decorator, displays her novel creation. Pupil of the earring is handpainted.

radio waves coming in from outer space and their effect upon radio communications.

This new research center at Boulder, Colo., was built for a cost of four million dollars.

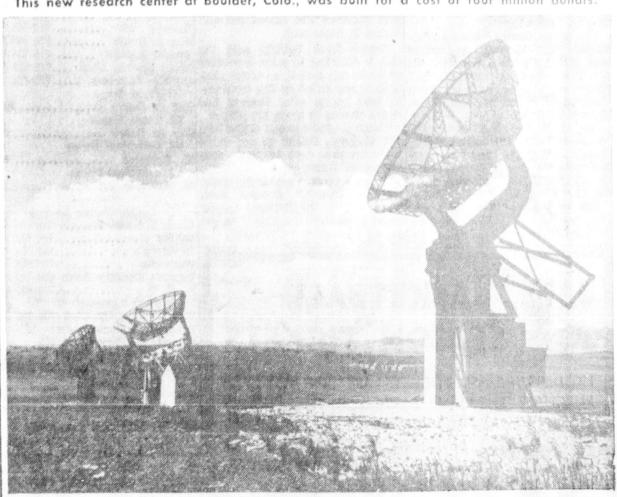

nandow US if we're a mite suspicious about this, but a press agent undoubtedly had something to do with it. Little Terrie Diederich of Las Vegas, brings her kitten, Little Britches, to actress-singer Marilyn Maxwell for some pointers. It seems that Miss Maxwell was clawed by a 250-pound tiger named Britches in a hotel swimming pool in town.

THIS MAZE of electrical equipment, part of a high voltage generator, would puzzle most adults, but not Danny Massey, of Chattanooga, Tenn. Eleven-year-old Danny, young genius with an I.Q. of 225, amazed engineers at General Electric plant in Schenectady, N. Y., with his knowledge.
